Journal of Hydrology, 144 (1993) 433
Elsevier Science Publishers B.V., Amsterdam

Contents

Research Papers

Contaminant advection and spreading in a fractured permeable formation: Part 1. Parametric evaluation and analytical solution
J. Birkhölzer, H. Rubin, H. Daniels and G. Rouvé 1
Contaminant advection and spreading in a fractured permeable formation: Part 2. Numerical simulation
J. Birkhölzer, H. Rubin, H. Daniels and G. Rouvé 35
Transport of soluble salts in a large semiarid basin: River Murray, Australia
A.L. Herczeg, H.J. Simpson and E. Mazor 59
Estimation des caractéristiques physiques d'aquifères profonds à partir de l'incidence barométrique et des marées terrestres
B. Marsaud, A. Mangin et F. Bel 85
Chemical reactiveness of soil water pathways investigated by point source injections of chloride in a peat bog at Birkenes
D.-I. Müller, I.C. Wohlfeil, N. Christophersen, M. Hauhs and H.M. Seip 101
Composition and driving mechanisms of longitudinal tidal average salinity dispersion in estuaries
H.H.G. Savenije 127
A method of deriving soil hydraulic properties from field water contents for application in water balance studies
P.J. Ross 143
Determining aquifer parameters from the impulse response to pumping
W.E. Kelly and I. Bogardi 155
The Prairie Blowing Snow Model: characteristics, validation, operation
J.W. Pomeroy, D.M. Gray and P.G. Landine 165
Forecasting of short-term rainfall using ARMA models
P. Burlando, R. Rosso, L.G. Cadavid and J.D. Salas 193
Stable isotope imaging of a dynamic groundwater system in the southwestern Sacramento Valley, California, USA
M.L. Davisson and R.E. Criss 213
Testing a catchment acidification model: 'MAGIC' applied to a 5 year lysimeter experiment
R.A. Skeffington and D.J. Roberts 247
Interception in a mountainous declining spruce stand in the Strengbach catchment (Vosges, France)
D. Viville, P. Biron, A. Granier, E. Dambrine and A. Probst 273
Variations in stable oxygen isotope and solute concentrations in small submediterranean montane streams
P. Durand, M. Neal and C. Neal 283
Linking variations in short- and medium-term stream chemistry to rainfall inputs — some observations at Plynlimon, Mid-Wales
A.J. Robson, C. Neal, S. Hill and C.J. Smith 291
Quantification of the water balance and hydrogeological processes in the vicinity of a small groundwater-fed wetland, East Anglia, UK
D.J. Gilvear, R. Andrews, J.H. Tellam, J.W. Lloyd and D.N. Lerner 311
The influence of pre-Devensian glacial deposits on the hydrogeochemistry of the Chalk aquifer system of north Norfolk, UK
K.M. Hiscock 335
Monthly runoff generation using the linear perturbation model
U.C. Kothyari, V. Aravamuthan and V.P. Singh 371
Synchronicity in global flood responses
D.H. Burn and N.W. Arnell 381
Groundwater fluxes in the global hydrologic cycle: past, present and future
I.S. Zektser and H.A. Loaiciga 405

Book Reviews

Tracer Hydrology by H. Hotzel and A. Werner (Editors) — J.S.G. McCulloch 429
Principles of Water Law and Administration by D.N. Caponera — J.S.G. McCulloch. 430
